## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 03 July 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 18 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Guillon for reasons of record at paragraph 4 of the Office Action dated 03/09/06.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 22-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Guillom for reasons of record at paragraph 6 of the Office Action dated 03/09/06.

### ***Response to Arguments***

5. Applicant's arguments filed 07/03/06 have been fully considered but they are not persuasive. In response to the outstanding grounds of rejection, applicant first argues that Guillom fails to teach a conduit, teaching fibers instead. This argument is not persuasive. The term "conduit" does not connote the structure of a tube, as asserted by applicant. Thermal conduits, for instance, need not be hollow. Moreover, this claim construction is further supported by new claim 34 presented in the response to the Office Action. Claim 34 recites that

Art Unit: 1775

the nanoconduit includes a tubular structure. According to the doctrine of claim differentiation, claim 18, from which claim 34 depends, must include conduits that are other than tubular.

Therefore, applicant's argument that the term conduit is limited to tubes is not well taken.

6. Additionally, applicant argues that the nanoconduit of the applied prior art is not contiguous with the aperture. This argument is not persuasive. The nanoconduit of Guillom is contiguous, viz., nearby or adjacent to, the aperture formed in layer 160 disclosed by Guillom. Therefore, this argument is not well taken.

7. In light of the above, applicant's arguments filed on 07/03/06 have been fully considered but are not found to be persuasive.

***Allowable Subject Matter***

8. Claims 20 and 21 are allowed.

9. Claim 34 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1775

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
